

(AT-3060-AM) AM DISINFECT

Part of the **AlphaSAFE** Antimicrobial Line

APPLICATION INSTRUCTIONS

1. PRODUCT DESCRIPTION

AM DISINFECT water-based spray is a long-lasting and powerful quick drying disinfectant that creates a transparent antimicrobial protective physical kill barrier for porous and non-porous surfaces, including fabrics and clear plastics. The disinfectant is applied using a hand or pump sprayer, wipe, or fogger.

Treated surfaces will retain strong antimicrobial properties for up to 90 days depending on wear & tear on the treated substrate. Product is EPA Registered (83019-1), NSF-51 Approved, and FDA-compliant for Food Contact Surfaces. Non-toxic with no antimicrobial transdermal absorption.

2. SURFACE PREPARATION

- Pre-clean surfaces prior to use.

3. APPLICATION

NOTE: As with any new material, always test application and finished properties on a low value test article or panel before working on valuable surfaces.

1. Apply by spraying onto the surface. Ensure even coverage over desired surface.
2. For fabrics, spray until fabric is wet. Do not saturate.
3. Allow treated surfaces to air dry. This will take approximately 15 minutes under most conditions. Surfaces (e.g. floors) subject to foot traffic should allow 30 minutes to dry before use.
4. Antimicrobial performance will remain for up to 90 days on coated surfaces, depending on use. AM DISINFECT may be re-applied as desired.
5. Treated surfaces may be cleaned normally between AM DISINFECT treatments.

APPLICATION INSTRUCTIONS

4. DRYING & CURING TIMES

Dry to Touch Time (@ 77°F / 25°C)	<ul style="list-style-type: none">• 15 minutes on average.• Allow 20-30 minutes for foot traffic (e.g. on floors, stairs, walkways, etc.)
---	--

5. COVERAGE RATE

- Estimated coverage – **Textile substrate:** 200-300 square feet/gallon (5.0-7.5 square meters/liter)
- Estimated coverage – **Porous substrate:** 200-300 square feet/gallon (5.0-7.5 square meters/liter)
- Estimated coverage – **Dense substrate:** 500-550 square feet/gallon (12.3-13.5 square meters/liter)

6. STORAGE STABILITY & SHELF LIFE

The shelf life is one year when stored in the original, unopened container. Store containers in a well-ventilated and covered area away from extreme heat and moisture. Contact your ALPHATEK representative if you have any questions about the products or its uses.

7. SAFETY

Refer to the Safety Data Sheet for this product prior to use.
